## N<sup>2</sup>PK OrGran 3-8-5 Premium Organic Granular Fertilizer

- First completely anaerobically digested poultry manure fertilizer.
- Totally transformed into a uniform, granular, fast acting poultry manure based fertilizer product.
- Low C/N ratio resulting in quick and extensive soil microbial and plant response.
- High calcium level of 8% along with 1% magnesium resulting in 8 to 1 recommended calcium to magnesium ratio.
- No offensive odor.
- Will not burn, cannot be over applied

### Major Nutrients

Nitrogen (N) 3%  
Phosphorus (P2O5) 8%  
Potassium (K2O) 5%

### Secondary Nutrients

Calcium 8%  
Magnesium 1%

Derived from anaerobically-digested poultry manure.

The **pathogen-free** organic matter in BioStar-digested poultry manure provides carbon and other essential elements to promote and sustain an increased level of **natural microbial activity** in soil.

N<sup>2</sup>PK's Soil Builder Premium OrGran 3-8-5 supplies **slow-release** organic nitrogen and a **natural balance of nutrients** to improve soil health and stimulate plant growth.
